

Complete PET Classware DVD-ROM

Classware is presentational software for the classroom, to be used with interactive whiteboards of all sorts (including portable devices) or just with a projector and a computer. It brings together all the core content of the course into a single platform, allowing immediate access to key resources, including all of the students book, images and audio. It facilitates the integration of teachers own content with the course resources and other Classware products. Notes and media files can be added and saved in preparation for lessons, and the toolset enables annotation of all the course texts and images.
