

Against All Odds!

The story of dramatic military actions where a few fought against many, often with unbelievable success. From the Napoleonic Wars to Korea, Bryan Perrett has found a further 13 dramatic military actions where a few fought against many, often with unbelievable success. The events take place in Europe, Africa, Asia and North America; they are linked only by the bravery and devilment which led military men to risk their lives for a last ditch attempt to advance their cause. Attending to the important facts and statistics required by the military historian, the author avoids invention and undue surmise whilst also avoiding the dry lecturing style found in so many volumes describing military strategy. The result is an absorbing, exciting and above all accurate account of astonishing battlefield warfare: narrative history of the sort at which Bryan Perrett excels.
