

The Dollar Store Spa: Thifty Tips and Hack to Creating Luxury and Elegance (Amy Explores)

Spas and cosmetic companies spend billions of dollars to get you to use their products and services. What most people don't realize is the expensive cosmetics and luxurious treatments can be broken down into simple components... and if you know how to combine these components, you can get your dollar store cosmetics to perform at the same level as more expensive brands.

This short book will be your guide. Start by learning how to evaluate a dollar store, learn which products you can buy with confidence and which you should leave and learn how to combine products for better performance. Learn how to use cosmetics in unsuspected ways to create unique results. Also gathered here are beauty tips and hacks our grandmothers and great grandmothers swore by. Learn to create a makeup illusion from the 1920s flappers. Achieve lustrous hair from Mrs. Burgers 1940s beauty hack. Learn forgotten beauty tricks from the 1980s. Finally, learn to gather all the elements together (from creating a spa space and atmosphere to gathering your supplies) to creating a relaxing spa experience in your own home. Don't just shop the dollar store; learn to work the items you buy there! So try new things! Experiment with new techniques! Shop without fear! It's only \$1! (Just like this book!)
