

Athens and Corcyra: Strategy and Tactics in Peloponnesian War

Not much attention has been paid to the history of Corcyra in relation to Athens in the Peloponnesian War, though Thucydides devotes no fewer than 52 chapters to it. John Wilson remedies this gap in scholarship by a detailed analysis of the Thucydidean text. Part 1 of the book deals with the Epidamnus and Sybota campaigns; Part 2 with the Corcyrean stasis, together with important tailpieces after 427 BC. The relevant texts of Thucydides are included in Greek, as well as the author's own translations and a number of maps.
