

CRASH Diet Plans for Women

If you are interested in doing a crash diet to lose weight very quickly (and do it in a safe and simple way) then this new book by bestselling diet author Jennifer Jolan is must reading. The book is called: Crash Diet Plans For Women. And it covers the seven most popular crash diets being hyped and promoted in the media. Jennifer Jolan has decided to write a book showing you ALL the facts about each one so you can take the GOOD parts of each diet and incorporate them into a healthy diet and eating plan (while discarding the dangerous parts). The crash diets discussed inside include: * The hGC Diet * The Cabbage Soup Diet * The Grapefruit Diet (also known as the Hollywood Diet) * The Banana Diet * The Blood Type Diet * The Cottage Cheese Diet * The Baby Food Diet. Each of these diets is explained in detail -- including the good, the bad, and the potentially dangerous parts. And if you take the good parts and throw out the rest using Jen Jolan's advice, you CAN lose weight quickly and safely. Some of the facts you'll learn inside include: * How a well-known health guru is able to eat up to 6,000 calories in a single day and still LOSE weight at the same time. * Why calorie-restricting diets will make you fatter, pudgier and possibly even crazy. (As you'll see, you would be better off NOT dieting at all than to do a crash diet that severely restricts your calories!) * A popular crash diet that will make you look like a heroin junkie! (Sure, you'll lose weight... but you'll look like a poster child for drug abuse, too.) * Why you should be careful of doing any kind of hormone balancing for weight loss. (No matter what the celebrities touting hormone therapy say.) * Why grapefruit is NOT the weight loss miracle Hollywood celebrities say it is. (And the ONLY time of the entire week you should drink it for weight loss.) * The most deadly kind of sugar in the world! (Believe it or not, millions of health

conscious people eat this poisonous sugar every day without even realizing it!) * The problem with eating bananas in the morning. (If you eat bananas in the morning, read this part first!) * When losing weight (even if you're obese!) can be worse than not doing anything at all. * And much, much more. This book is full of facts and information on today's most popular crash diets. Doing any one of them can be potentially very dangerous. But if you take the good parts of each diet (and discard the bad) following Jen's instructions, they can also help you lose a LOT of weight quickly and safely.
