

Beyond Neptune Spear: The (Open) Secret History of SEAL Team Six, Post-9/11

The modern history of SEAL Team Six did not begin with the killing of Osama bin Laden, nor did it end there. Once mired in controversy and doubt, ST6 has blossomed into one of the most accomplished fighting units the world has ever known. Having taken down the highest of high-value targets, rescued American hostages in Africa, the Middle East, Asia, and the Indian Ocean, and served as the silent guardian of the Coalitions conventional forces, SEAL Team Six has defined the post-9/11 world as much as it has been defined by it. The follow-up to SHAPING THE WORLD FROM THE SHADOWS -- the definitive open-source guide to Delta Force -- BEYOND NEPTUNE SPEAR is a contextual examination of DEVGRUs post-9/11 existence, from the most high-profile operations to the little-known missions that are still barely more than whispers. Once again, Chris Martin has proven himself to be one of journalism's sharpest observers of U.S. special operations forces. BEYOND NEPTUNE SPEAR is a remarkable synthesis of the history, operations, and organization of SEAL Team Six. It is the most comprehensive guide to the unit ever published. - D.B. Grady, co-author of THE COMMAND: DEEP INSIDE THE PRESIDENT'S SECRET ARMY. BEYOND NEPTUNE SPEAR tells much of what you wanted to know about SEAL Team Six post-9/11 but didn't ask for fear of getting shot. Chris Martin begins with Team Six's rogue beginnings then quickly springs into its operations post-9/11 until present. Although a short book, you'll get bang for your buck here. For newcomers to the topic, BEYOND NEPTUNE SPEAR provides an exhaustive overview of Team Six's current happenings. For experts on Team Six, Chris's work provides an excellent summary of the post-9/11 Team with occasional information you probably missed. The reference page alone is a

treasure for studying/reviewing the unit that whacked bin Laden. Also, because Chris used open sources to write this book, you don't have to fear stealing government secrets and taking a bullet to the head. -Stephen Templin, New York Times bestselling co-author of SEAL TEAM SIX.
