

## Burning Bush 2.0: How Pop Culture Replaced the Prophet

Maybe God doesn't speak through prophets as often these days because he knows people wouldn't listen. Maybe God speaks to us in different ways and in the places he knows where we congregate: in our movie theaters, living rooms, iPods, and smartphones. Maybe God still longs to connect with us, and so goes into the places where we're most likely to listen. *Burning Bush 2.0* is a whimsical and sincere examination of the ways God communicates with us—sometimes subtly and secretly through our media and entertainment streams. Asay examines how faith and God's fingerprints mark movies and music, television and technology. Through word and picture, God still speaks to us through unsuspecting voices in ways we're best able to hear even if we don't fully comprehend it completely in the moment. God is everywhere, and doesn't ask permission to speak, shout out, or whisper his name. Includes study guide for individuals and church groups.
