Whats going on? The cancer is melting away exclaimed the South Carolina doctor who had given his terminal lung cancer patient six months to live. Little did the doctor know his patient was curing her cancer at home with perhaps the most effective cancer-killing miracle food on planet earth. A miracle food that kills cancer better than chemo, as proven by the seven-time Nobel Prize nominee who discovered it a miracle food that gives cancer patients more energy and zest for life a miracle food that liquidates cancer melting it away without causing side effects a miracle food that astonishes conventional doctors. This miracle food is the cornerstone of cancer author and radio commentator Bill Hendersons favorite protocol for curing cancer at home. Bills two leading books and weekly radio shows have helped people in 59 countries discover safe and effective ways to get rid of almost any cancer without surgery, without radiation and without chemotherapy. Now, for the first time, Bill has devoted an entire Special Report How to Cure Almost Any Cancer At Home for \$5.15 A Day to this miracle food and to how you can use his cancer fighting protocol to melt away even stage-four cancers. Besides being incredibly effective, Bills entire protocol is also very easy. The whole thing fits on a recipe card you can tape to your refrigerator door. And its so inexpensive at just \$5.15 per day that almost everyone can afford it. Whats more, after six weeks the cost drops to \$3.50 per day, making it even less expensive. Bills protocol has cured cancer even in patients written off by their doctors as hopeless and terminal. One of these patients, Richard, a plantation owner from Louisiana was dying of brain cancer and had two months to live. But Richard left his hospice a place where people wait to die and went home to cure his cancer. Have you ever heard of someone walking out of a hospice and
