

# The Collected Works of Ken Wilber, Vol. 1: The Spectrum of Consciousness / No Boundary / Selected Essays

The Spectrum of Consciousness (1977) one of the founding texts of transpersonal psychology introduces the full-spectrum model, showing how the psychological systems of the West can be integrated with the contemplative traditions of the East. No Boundary: Eastern and Western Approaches to Personal Growth (1979) is a simple yet comprehensive guide to psychologies and therapies available from both Western and Eastern sources. Several important early articles: The Psychologia Perennis, Are the Chakras Real? and Where It Was, I Shall Become.
