

Principles from the Underground House Churches in North Korea (Principles from Underground House Churches)

Christians in North Korea live under unimaginable horrors and tyranny. Worshipping in public or if caught in private brings systematic torture, imprisonment and at times death. Carrying a Bible or speaking to others about Jesus Christ can bring a cruel death. If a North Korean Christian believes, he affects three generations of his family including the children. The parents, spouses, uncles, aunts and children must all suffer and will be incarcerated in death camps. It does not matter whether they believe or not. North Korean Christians aren't simply killed for their faith in Christ. They are annihilated with construction equipment and other means. In the death camps some Christians are killed by being tested with biological weapons, or starved to death, or worked to death, or shot or electrocuted. Others are shot in front of children. Newborn babies have their brains crushed or a needle inserted into their spine in front of their mothers. These are crimes against humanity reminiscent of Auschwitz to which the world declared Never Again! Just a few years later such atrocities are being perpetrated against North Korean Christians and the world stands by. Be challenged to gather as house churches in non-persecuted countries and prepare for coming persecution.
