

## The Seven Laws of Sacred Activism (Consciousness in Action Conference--2007)

The Seven Laws of Sacred Activism is a four CD set of recordings done at the 2007 Consciousness in Action Conference sponsored by the Institute of Noetic Sciences. The first CD has audio impairments because it was produced at a live conference. I am not charging for that Disc. If the listener is familiar with Dr. Harvey, he or she will quickly realize that the depth and intensity of his teachings has greatly increased. Dr. Harvey is the creator of the Sacred Activism Movement, and his presentation can be considered prophetic as he calls humankind to greater awareness of the crisis we are in. Part of the disc set is given to interactions with the audience. These interactions are very interesting and they are an important part of the totality of Dr. Harvey's message. To speak metaphorically, Dr. Andrew Harvey is raging with a fire of Love . . . one which he longs to ignite in each of his listeners. You will not be disappointed with the time spent listening to these CDs.
