

The Heart of the Master & Other Papers

The Heart of the Master is a visionary text written at Sidi Bou Said, Tunisia, the site of ancient Carthage. It heralds the arising of the Beast 666 as the Prophet of a New Aeon governed by Horus, the God of Force and Fire. The work delineates the spiritual forerunners of the New Aeon who were sent out at historical intervals to guide humanity's spiritual evolution. This new edition features full-page portraits of these spiritual antecedents. It also includes a visionary and poetic summary of the elements of the Holy Qabalah, accompanied by illustrations of the Tree of Life and the Major Arcana of the Tarot as a guide to meditation. Includes 36 full-page illustrations and a new editors introduction.
