

# Hands-on Healing @ Home: ~ 4 Diseases that Your Doctors Cannot Heal ~ (Hands-on Healing @ Home -1-)

Aside from deadly diseases, cancers or AIDS, there are four illnesses MDs cannot heal: 1) lumbago (low back pain), including lumbar spinal stenosis, herniated disk in the lower lumbar, sciatic neuralgia (ischialgia), or so-called slipped disk (acute low back pain) related to the listed three symptoms (chronic low back pain), 2) headaches (& insomnia), 3) colds/flu, and 4) hemorrhoids. Here, I describe a simple, inexpensive, and safe way to cure each illness; so, before you have surgery (or make your children take oseltamivir pills (Tamiflu)) to make it irreversible, it is worth trying each method for your symptom. \* The first reviewer who rated the second series of these Hands-on Healing @ Home books, Acupuncture @ Home with five-stars (☆☆☆☆) titled, This book had changed my life for the better, said, This book is a wonderful gift. Its even dedicated to the uninsured people of the US. The information I found in this book encouraged me to take charge of my health and changed my life for the better. It includes step by step, instructions that are surprisingly easy to follow. Im truly grateful for the author to have published this book.
