

EARTH'S HUMANITY FACES ERADICATION IF REQUIRED CRITERIA ARE NOT MET! Historian, Thomas Scribner, is granted a 25-year opportunity to save the species. He recruits helpers, and establishes a foundation as he embarks on his quest to save humankind. Scribner also develops and conveys a message to people around the world concerning the very real threat to their existence. Success does not come easy. A warning action is to be taken in 2025 if there is insufficient progress. A second warning action will take place in 2035 if improvement is still inadequate. After that, all bets are off as to what will happen.
