Traditional tobacco cigarettes have a bad reputation, and for good reason! Its no secret that smoking cigarettes can cause a number of health problems, including lung cancer, but for many, giving up smoking is incredibly difficult. Enter the electronic cigarette, a relatively new technology that is quickly becoming a popular alternative to traditional smoking. These are showing a lot of potential for being a much healthier alternative to traditional smoking, while allowing the user to enjoy the satisfaction that comes from the hand-to-mouth motion and the blowing of smoke from the cigarettes theyre used to. These incredible devices have much potential, but figuring out where to start with electronic cigarettes can be intimidating. Let this book be your guide in exploring the world of e-cigarette options. Heres a Preview of What You Will Learn *

- * What are electronic cigarettes?
- * How are they different from traditional cigarettes?

As someone whos smoked a pack a day most of my life, I didnt think Id ever be able to quit completely, even after my doctor warned me that I need to. Electronic cigarettes seemed like a good option, but I didnt know a thing about them. This book was a great tour of my options. Derek C. (Columbus, OH, USA) I got my first electronic cigarette after reading this book,

and I love it! Thanks for the great guide.
Max F. (Birmingham, UK) I really like how this book breaks down all the e-cigarette options. It even tells you about the history, and how they are made. Very informative!
