

England Your England

England Your England is an essay written by the British author George Orwell during The Blitz of 1941 as bombers of Nazi Germany flew overhead. It is his attempt to define British culture and the British people for the rest of the world as he fears that it might soon be wiped from earth by the Nazi armies. He also states that England would not change into a fascist state and cannot unless she is thoroughly broken. The essay is in fact the first part of The Lion and the Unicorn: Socialism and the English Genius, published 19 January 1941, as the first volume of a series edited by T. R. Fyvel and Orwell, in the Searchlight Books published by Secker & Warburg.
