

## Experiencing God around the Kitchen Table

Women today have very multi faceted lives. They balance husbands, children, ministry, and often careers! The biblical example of older women mentoring the younger generation is often missing today. Through Marilynn's life and testimony, this book will walk through many of the major issues confronting women in today's society and help them see God's faithfulness and plan for their lives. Experiencing God around the Kitchen Table will help women understand how God is faithful throughout their lives, no matter what struggles they face. Marilynn's story demonstrates that developing a stronger relationship with the Lord will help them succeed as wives and mothers. We can learn from one who has walked with the Lord through trials, which brings guidance and hope.
