

Christianity and Idealism, the Christian Ideal of Life in Its Relations to the Greek and Jewish Ideals and to Modern Philosophy Howison (Classic Reprint)

The present volume, though the first to come from the press, is in its proper order the second in a series of publications projected by the Philosophical Union of the University of California. The first volume, entitled *The Conception of God*, by Professor Royce of Harvard University and a number of his critics, has been thrown out of its natural place by the stress of circumstances, but will presently be issued, and in due time will be followed by others from various writers of philosophical weight. (Typographical errors above are due to OCR software and do not occur in the book.)
