

ADULT LIMERICKS TO LAUGH BY

This is an entertaining book of 60 funny limericks written by John Williams. As with all of John's books his poems are always character driven. Meet some very fascinating characters getting in all kinds of absurd situations that always result in a laugh for the reader. Also featured in this book are what would best be described as double limericks. These are 2 verse limericks written to extend the laughter. So hold on to your sides and get ready to enjoy this particular form of poetry. Each limerick is illustrated in colour. Any medical bills caused by laughter will not be covered by John as he has his own problems.
