

Gender, Power and Sexuality: Explorations in Sociology (Explorations in Sociology. British Sociological Association Conference Volume Series)

Gender, Power and Sexuality is a collection of original and exciting articles by well-known feminists which makes a major contribution to our understanding of the ways in which men exercise control over girls and women in their daily lives, in the home, at school, at work and in the courts. Women are seen to resent and challenge male power, but, the institutionalisation of male power is shown to mitigate against women taking control over their own lives.
