

Ghosts: Marine Snipers in Iraq

In the chaos of the combat zone, there are the living, the dead, and the Ghosts. In the ongoing Iraq conflict, there are no battle lines, no direct offensives, no ground won or lost—just the daily fight against an enemy who hits and runs, hides and sneaks. If the enemy shows himself, it's only for a moment. But for a Marine Sniper, that is all that is needed. Readers now have the opportunity, from these warriors' perspective to peer into the killing zone through a telescopic lens, down the barrel of a high-powered rifle, and into the very heart of the enemy. The training, the techniques, and the steel will necessary to survive as a sniper are all described in vivid detail. Charles Henderson also delves into the core of the enemy—the maniacal ideology, and the tactics that have sown so much violence in Iraq—and how they are all vulnerable to a single bullet from a Ghost.
