

# Hazelets Journal

Hazelets Journal is a riveting Alaska Gold Rush saga that takes place in the Copper River Country 1898 to 1902. It is a remarkable true story, not only about a man and his family, but about a nation finding its way into the twentieth century. It is a timeless story about a restless nation and the great American spirit that our country was founded upon. Its a true, unedited American story, told in the journalists original voice, now captured for generations to come.
