

## The Decline and Fall of the Roman Empire: Volume 2

[Read by Bernard Mayes] [This is Volume 2 : containing 3 - MP3CDs in this one pkg.] The second volume of Edward Gibbons classic timeless work of ancient Roman history. Famous for its unflinching narrative power, fine organization, and irresistibly persuasive arguments, The Decline and Fall of the Roman Empire has earned a permanent place of honor in historical literature. Gibbons elegantly detached erudition is seasoned with an ironic wit, and remarkably little of his work is outdated. This second volume covers 395 AD to 1185 AD, from the reign of Justinian in the East to the establishment of the German Empire of the West. It recounts the desperate attempts to hold off the barbarians, palace revolutions and assassinations, theological controversy, lecheries and betrayals, all in a setting of phenomenal magnificence.
