

## I Believe in Preaching (Hodder Contemporary Classics)

Is preaching dead - or at least dying? In a digital age, where congregations have unprecedented access to resources, do we still need sermons? John Stott's *I BELIEVE IN PREACHING* has been essential reading for ministers, students and lay preachers for over three decades. Its message is as relevant today as ever. I do believe in preaching. . . I believe that nothing is better calculated to restore health and vitality to the Church or to lead its members into maturity in Christ than a recovery of true, biblical, contemporary preaching. John Stott This edition also contains a brand new introduction from the original series editor Michael Green.
