

## Student CD-ROM for use with Managerial Accounting

The student CD-ROM contains four items to help students pass their managerial accounting class:. 1.) Tutorial - contains true/false questions, multiple choice exercises, and interactive exercises; as you answer each question the software provides feedback for questions answered incorrectly and provides a running tally of the percentage you have answered correctly.. 2.) NetProphet III Demo - activity-based management software created by Sapling Corporation. Corporations such as Amoco, Ralston Purina, etc., use this software to help them manage costs.. 3.) NetScore Demo - a performance measurement software product developed by the Sapling Corporation. Corporations such as Barclays PLC use this product to help them identify problems with their performance.. 4.) Video Clips - are included to help you visualize selected managerial accounting concepts. Exercises for the video clips are found on the texts web page.
