

Panzers at War (The At War Series)

Panzers at War takes us around and inside the tanks of the German military during World War II, ranging from the two-man 6-ton Panzer I light tank, armed only with machine guns, to the five-man 70-ton Tiger B tank armed with the powerful 88mm main gun that inspired fear among all its opponents. The At War series features accessibly-written books on military equipment and elite military units, including exciting first person accounts and descriptions of combat and equipment through the eyes of soldiers and other military personnel.
