

The Seeking Church: A Space for All

This book is the third in a series of books which attempted to explore the relevance of the Christian faith to everyday living and the nature of Christian faith itself. Following on from these ideas, this volume seeks nothing less than to re-define the nature of the church, challenging it to visualize its identity and task in a whole new way: a way full of risk, yet founded on love, and a way which reflects more closely than do current models of the church, the risk-taking and loving nature of God himself.
