

Literature: Reading, Reacting, Writing

The first three-genre introduction to literature text to address the changing canon is now the first to include a comprehensive guide for writing about literature-with full coverage of critical thinking, argument, and the writing process. Teachers themselves, Kirszner & Mandell take students through each step of the research and writing process, helping them to craft literary analyses and arguments and to understand that writing about literature is a process of discovery, examination, and debate. Combining the broadest selection of literature available with time-proven and class-tested instruction, LITERATURE: READING, REACTING, WRITING, Sixth Edition, remains the most useful and student-friendly introduction to literature text available.
