

Re-Thinking Worship (Together in Hope Book 7)

For many who seek a credible Christian faith in this twenty-first century, participation in public worship raises challenging questions about the nature of God, the use of language and the very practice and purpose of acts of worship. Much has been written about prayer and worship over the centuries and there are many helpful insights and resources about liturgy. Yet the difficult issues about language and meaning in worship remain an obstacle for many who would wish to be part of a worshipping community. In this booklet Jan Berry addresses these issues in a gentle and yet comprehensive rethink about Christian worship. For many in the churches, this booklet will hopefully encourage discussion about the ways in which their offering of worship can speak, with integrity, to modern day believers. For others, the questions raised here might offer hope for ways in which church communities can include those who question, search and yearn for authentic spiritual experiences which speak to them of the love and compassion seen in Jesus. We are grateful to Jan Berry who has brought her considerable knowledge and experience as a pastor, liturgist and teacher to add to the books in this Together In Hope series.
