

## NCCN Guidelines for Patients®: Lung Cancer Screening

[OFFICIAL CURRENT VERSION] From the medical leaders of 27 of the world's most renowned cancer centers united under the National Comprehensive Cancer Network (NCCN), comes this essential guide to lung cancer screening. Adapted from clinical treatment guidelines used by physicians and oncology professionals around the world, these NCCN Guidelines for Patients are packed with the latest information, treatment innovations, and resources about lung cancer screening. Each patient-friendly chapter prepares patients and caregivers to talk with their doctors and make decisions. Let this authoritative handbook be your guide! Part 1 Why get screened? Presents the dangers of lung cancer. Part 2 Am I at risk? Describes what increases your chances for lung cancer. Part 3 Should I start now? Describes who should start screening. Part 4 What happens after the first test? Presents a guide to care based on screening test results. Part 5 How can I know for sure its lung cancer? Describes removal and testing of lung tissue for cancer. Part 6 Making screening decisions: Offers tips for choosing the best care. A glossary with dictionary and acronyms completes this book.
