

Making Sense of Who God Is: One of Seven Parts from Grudem's Systematic Theology (Making Sense of Series)

With clear writing technical terms kept to a minimum and a contemporary approach, emphasizing how each doctrine should be understood and applied by present-day Christians, *Making Sense of Who God is* explores the existence of God through inner knowledge and evidence found in Scripture and in nature. Topics include but are not limited to Traditional Proofs for God's Existence: covering cosmological, teleological, ontological, and moral evidence of the Creator; The Trinity: the three distinct persons each equal to the whole being of God; Creation: including the assertion that, when all the facts are understood, there will be no final conflicts between Scripture and natural science; and God's Providence: the Creator's continued involvement with all created things and human actions that make a difference within God's providence. Written in a friendly tone, appealing to the emotions and the spirit as well as the intellect, *Making Sense of Who God is* helps readers overcome wrong ideas, make better decisions on new questions, and grow as Christians.
