

The Nicaragua Canal: The Gateway Between the Oceans (Classic Reprint)

Excerpt from The Nicaragua Canal: The Gateway Between the Oceans
In accordance with the early and later policy of the Government; in obedience to the often expressed will of the American people; with a due regard to our national dignity and power; with a watchful care for the safety and prosperity of our interests and industries on this Continent; and with a determination to guard against even the first approach of rival powers, whether friendly or hostile, on these shores, commend an American Canal on American soil to the American people, and congratulate myself on the fact that the most careful explorations have been started, and that the route standing in this attitude before the world, is the one which commends itself as judicious, economical and prosperous work.
