

Playing for England

When best selling author David Black was a young man he took a slug in the eye and it seemed his military career was over... or was it? He began to rebuild his shattered life by taking a most extreme road to salvation... The British army's reserve SAS Regiments selection! With a 90% failure rate, did David set the bar too high? Had he embarked on an impossible quest? Join him on the barren and unforgiving mountains of south Wales, and see for yourself what the elite SAS demanded of him and what he endured in this true and quite amazing story. David Black served in the British army for more than 15 years. From the ugly, war-weary streets of Londonderry in the early 1970s, to the ranks of a Territorial regiment of the now famous Special Air Service, until the mid eighties. When not serving part-time with the Regiment, he worked as a fully qualified London black cab driver. Because of the security implications with the S.A.S., David has waited over twenty years before writing anything about his many military adventures. Names have been changed, because even now, ex-members of the Regiment (and their families) are potential targets for the more rabid elements of the terrorist world. David holds many memories of life and experiences in the British army and particularly the Special Air Service regiment; happy, sad, funny, outrageous and sometimes, downright dangerous. This book covers his early military years, and culminates with a detailed look at his S.A.S. Selection and Continuation training course. Having published his fascinating reserve SAS autobiography - *Playing for England* and based on a mixture of fiction and his own experiences, David is currently writing a new and highly original series of novels concerning the dangerous global missions of Sgt. Pat Farrell and the SAS reserve - The men of the ultra-secret SAS Shadow Squadron burst onto the global stage in
