Excerpt from Ecuador: Its Ancient and Modern History, Topography and Natural Resources, Industries and Social Development There has been hitherto no comprehensive book in English dealing with the republic of Ecuador, a void which the present volume is intended to fill. The country, as will be shown, is one of peculiar interest from various points of view, whether to the trader, the traveller, or the general reader. The book is offered as a study in human geography in the field covered, a theme such as has been the underlying one in the authors various works upon other lands, both in this series and elsewhere.
