

## Potez 63 Family (Orange Series)

The Potez 63 and its variants was a significant part of the French Air Forces equipment in 1939/40, serving in the light bomber, fighter, and reconnaissance roles. The development and operational use of these elegant twins is described in this new book, illustrated with many photos, including a large selection of those previously unpublished. With 1/72nd scale plans, color artwork illustrating the colors and markings, and text by a noted French aviation historian, this book is essential reading for WW2 aircraft enthusiasts.
