

Ethics: Subjectivity and Truth (Essential Works of Foucault, 1954-1984, Vol. 1)

Few philosophers have had as strong an influence on the twentieth century as Michel Foucault. His work has affected the teaching of any number of disciplines and remains, twenty years after his death, critically important. This newly available edition is drawn from the complete collection of all of Foucault's courses, articles, and interviews, and brings his most important work to a new generation of readers. *Ethics* (edited by Paul Rabinow) contains the summaries of Foucault's renowned courses at the Collège de France, paired with key writings and interviews on friendship, sexuality, and the care of the self and others.
