

Presence-Driven Family Worship: Taking up Gods Generational Call for the Family Altar

Satan understands the powerful gift and weapon we cradle in our hands called our children, and He is battling for their souls, and the destruction of our family inheritance. The family altar was created to be that place where God fights for us and the Holy Spirit changes us and our family from glory to glory. As parents, entrusted with Gods children, we cant afford to busy ourselves doing good things and not God things. It is the purpose of this book to cultivate a generation of families who will bring the altar and vision of God back once again in their homes, and create an atmosphere for the habituation of the presence of God. Presence-Driven Family Worship is about a call back to the ancient ways; the ancient vision that God established for families. Gods heart for families always was to create a perpetual generation of family worshippers that would daily abide in His presence. However, today, more often than not, our children go one way at church and we go the other. The same thing is daily occurring in our homes. Gods ancient vision of a family altar, that inhabits the presence of Jesus, is almost non-existent. Satan has used business, cultural ideologies, and every distraction at his disposal to keep our families from making Jesus the center of our homes. He has robbed us of presence-filled family worship. The altar of our home, where Gods vision for our families is to be cultivated and manifested, has been stripped away and replaced with business, rebellion, compromise, distractions, and selfish lusts of the flesh. It is time to take the vision back and lay hold of the compass that points us to the family altar once again. This book will take you from the bigger picture of Gods generational vision for families, to His calling in us as parents, to a Biblical blueprint for family worship and ministry, and finally a step by step instruction manual found in Gods word for

presence-driven family worship called the tabernacle of Moses. But this isn't just another book with good information. I also provide you with very practical, creative, and spirit-filled ways that you can begin and continue in the vision and calling of the family altar through what I call jumping off ideas. This is where you will begin to get creative ideas on how to go from vision to reality. Will you accept the call to presence-driven family worship? There is nothing that God created with more value than the gift of the family. In fact, He created the family before he created His church. Alicia White has captured in this book the very heart of God concerning the dynamic of family worship welded with wisdom & insight on understanding the call to worship as a family. The valuable treasures within this book will revolutionize your understanding of the privilege, power, & potential that results from practicing your faith in Christ within the frame work of your family. Your life & family will never be the same as you open up your heart to the profound & practical teachings of this book. The investment of each chapter sown into your life will without doubt bring a fruitful harvest to you & your family. Enjoy!
