

## How To Stop Smoking... PERIOD.

Over 10,000 of these booklets have been given away on the Internet and I'd like to give one to you for only 99 cents. (The only reason I don't have it listed for free is, for some reason, Amazon KDP insists that I price it at 99 cents.). Hundreds (maybe thousands) have been able to rid themselves of this terrible habit and do it without having to endure the pain of withdrawal. I get emails from people regularly who have used the program and become non-smokers. When I say non-smokers, I don't mean people who try to tough it out and constantly fight it. I mean people who have completely rid themselves of this habit. They became Non-Smokers. It only costs .99 - (Far less than one pack of cigarettes.) Try it. What have you got to lose except your smoking habit. Good luck. I know you can do it. I am intentionally pricing the book at 99 cents in the hopes of encouraging more people to get it and break this terrible habit. If you have any questions, feel free to email me at [firo.chas@gmail.com](mailto:firo.chas@gmail.com) It works!
