At its heart is a complete step-by-step reference, demonstrating how to carry out a full foot and hand treatment with clear, annotated photographs that show exactly where to apply pressure and which technique to use where. There are explanations of how to adapt treatments to suit the whole family - including children, babies and the elderly - and treatments for 60 common ailments ranging from arthritis to colic, plus quick-fix tips such as a de-stressing treatment for use in a supermarket queue or busy office.
