

Diet Diary: Personal Food & Fitness Journal

Proven Increased Health and Weight Loss Results! Keeping a food log has been proven to be one of the most effective tools for people to make lifestyle choices in regard to the healthy consumption of food.

There are many studies that have shown that people who keep food journals are more likely to be successful in losing weight and keeping it off. In a six month study published in the American Journal of Preventive Medicine, people keeping a food diary six days a week lost about twice as much weight as those who kept food records one day a week or less. Conveniently pocket sized (6 x 9), the Diet Diary: Personal Food & Fitness Journal has been designed for flexibility; you don't have to fill out every single area marked if you don't want to just try to be consistent so when you review your entries over a week (or month or longer), you have information that can help you understand your eating behavior so you can shed the pounds and keep them off forever. If this is your first attempt at getting fit or if you've had trouble getting or keeping weight off in the past, the Diet Diary: Personal Food & Fitness Journal will help you achieve the results you want and deserve. Super Charge Your Weight Loss Success with the Diet Diary: Personal Food & Fitness Journal!
