

Sermons and Addresses

This will be a real treasure for anyone interested in George Muller. One of only two known copies, the other being in the British Library, we have here converted our copy of Mullers own edited volume of sermons into text. The more common Jehovah Magnified contains only very short notes by a hearer. The present work was edited by Muller himself. While the sermons arent lengthy, they are much more complete and thorough and certainly better represent Mullers true ministry.
