With its fresh, fun, and hip approach, *SEXUALITY NOW: EMBRACING DIVERSITY, 5E*, teaches students what they need and want to know about sexuality while clearly conveying foundational biological and health issues and citing current and classic research. The text continues to be a product of author Janell Carrolls partnership with her students, answering the questions and concerns that students have about themselves and their sexuality with scientific fact, sensitivity, humor, and unmatched candor. Carroll presents the range of sexual orientations and behaviors and takes into account the social, religious, ethnic, racial, and cultural contexts of todays students. This edition includes even more examples and research on sexual diversity both within and across cultures. The MindTap for Sexuality Now features an array of engaging videos of Dr. Carroll traveling to different countries and videotaping actual interviews with people regarding their take on various human sexuality research topics (love hotels in Japan; comprehensive sex education in Scandinavian countries).
