

## The Fifties

The Fifties is a sweeping social, political, economic, and cultural history of the ten years that Halberstam regards as seminal in determining what our nation is today. Halberstam offers portraits of not only the titans of the age: Eisenhower Dulles, Oppenheimer, MacArthur, Hoover, and Nixon, but also of Harley Earl, who put fins on cars; Dick and Mac McDonald and Ray Kroc, who mass-produced the American hamburger; Kemmons Wilson, who placed his Holiday Inns along the nations roadsides; U-2 pilot Gary Francis Powers; Grace Metalious, who wrote Peyton Place; and Goody Pincus, who led the team that invented the Pill.
