

Paraguay en su laberinto / Paraguay in His Labyrinth (Spanish Edition)

Se sabe poco y mal de Paraguay. Para algunos el país vecino es un enclave agrario y atrasado todavía referenciado en la figura sombría del ex dictador Alfredo Stroessner cuya caída se produjo en 1989. Otros saben de Fernando Lugo pero apenas lo relacionan con las supuestas paternidades no reconocidas del presidente. Los observadores más avisados sin embargo resaltan que Paraguay está viviendo una realidad inimaginable años atrás. La política Mariana Fassi autora del presente ensayo se aboca a analizar el nuevo panorama. Muchas transformaciones se habían prometido con la llegada de Lugo al poder. Algunas se cumplieron y otras no. El presente trabajo recorre además algunos hitos fundamentales de la historia paraguaya los quiebres que se produjeron en el modelo tradicional y los atisbos de una fuerte movilización social donde se mezclan principios humanitarios (inspirado en la Doctrina Social de la Iglesia) y reclamos largamente postergados de la población.
