

The Da Vinci Code Illustrated Screenplay: Behind the Scenes of the Major Motion Picture

The Da Vinci Code Illustrated Screenplay goes behind the scenes of one of the most highly anticipated movies of all time, created by Academy Awardwinning filmmakers Ron Howard, Brian Grazer, and Akiva Goldsman. Offering unprecedented access to the tightly guarded closed set, and a view of the filmmaking process that has never been seen publicly, screenwriter Goldsman provides a backstage look at the incredible journey to bring Dan Browns record-setting novel to the big screen. Goldsmans richly rendered screenplay is included here in its entirety. It offers a fascinating new way to experience the story and includes a number of moments (and even full scenes) that do not appear in the final cut of the movie. Lavishly illustrated with 275 images of the actors and filmmakers from both the movie set and the film itself, this behind-the-scenes features include: Filming in the Louvre in the dead of night, and re-creating a 400-foot section of the museums Grand Gallery on a soundstage down to the precise architectural details, and complete with 120 oil-painting masterpieces. The full digital and soundstage re-creation of the Church of Saint-Sulpice. The transformation of Lincolnshires Lincoln Cathedral into Londons Westminster Abbey, and the reproduction of Sir Isaac Newtons enormous tomb. Handwritten notes on pages from Ron Howards script. The evolution of script dialogue as it progressed from an early draft of the screenplay to final shooting form. Dozens of never-before-seen storyboards that were used to block out scenes before filming commenced. For any fan of the filmmaking process, and of the extraordinary movie and novel, this exquisitely produced book will be an invaluable companion.
