

The Dore Lectures On Mental Science

Thank you for checking out this book by Theophania Publishing. We appreciate your business and look forward to serving you soon. We have thousands of titles available, and we invite you to search for us by name, contact us via our website, or download our most recent catalogues. The addresses contained in this volume were delivered by me at the Dore Gallery, Bond Street, London, on the Sundays of the first three months of the present year, and are now published at the kind request of many of my hearers, hence their title of The Dore Lectures. A number of separate discourses on a variety of subjects necessarily labours under the disadvantage of want of continuity, and also under that of a liability to the frequent repetition of similar ideas and expressions, and the reader will, I trust, pardon these defects as inherent in the circumstances of the work. At the same time it will be found that, although not specially so designed, there is a certain progressive development of thought through the dozen lectures which compose this volume, the reason for which is that they all aim at expressing the same fundamental idea, namely that, though the laws of the universe can never be broken, they can be made to work under special conditions which will produce results that could not be produced under the conditions spontaneously provided by nature.
