

The Entrepreneurial Introvert Guide: Discover and Take advantage of your Quiet Inner Power, Making the Best of your Introvert Methods to Kill It in the Business World

The Entrepreneurial Introvert Guide Read on your PC, Mac, smart phone, tablet or Kindle device. Are you worried that your Introvert ways aren't good enough to thrive in a world that values outgoing people with leadership skills over everyone else? Do you wonder what kind of activities will empower you as an INTROVERT to effectively drive your business venture forward? Are you ready to learn and take advantage of the common traits that most of the Introverted business geniuses like Warren Buffet or Mark Zuckerberg (to name only a few), possess? The majority of people feel that, to be a great Entrepreneur or businessman, you need to have an outgoing personality that is very authoritative and commanding. Movies like the Wolf of Wall Street come to mind. I'd say that is total Bull@#\$! Introverts carry a totally different point of view that could be a major asset in any organization. Due to their introspective personality, Introverts are deeper thinkers and better listeners. They are likely to foresee future shortcomings in the business, due to their highly analytical and methodical minds, before they could bite you later in the game. An introverted business leader that pays attention and listens to their customers, employees and peers for constructive feedback, can make better informed decisions and thrust a business forward in a wise manner. Would you like to discover the qualities that make you a better entrepreneur as an introvert, so that you are empowered and motivated to plunge into the entrepreneurial world? Are you ready to learn the strategies that will lead your team to be more effective and better complement your introvert personality? In this guide you will discover and integrate into your business, the insights and easy strategies that I learned and researched throughout the years (still learning some more) from being an introvert employee working a 9 to 5 in the

corporate world, to becoming a Businesswoman. I had to go through some dark hard trying times where my mind and body suffered a total breakdown due to lack of sleep and severe anxiety attacks. I went to psychologists and seminar after seminar so that I could discover a better life where my introvert personality could thrive as opposed to being unheard. I remember the countless times my own ideas were denied to be later accepted as my superiors, who had voiced them out in a better, flashier way than I had done before. I went from being practically invisible in the corporate world to thriving as an Entrepreneur on my own. In this essential guide you will get incredible insights and actionable strategies into the following topics for entrepreneurial introverts so that you dont have to learn them the hard way like I did: Understand and debunk myths of Introversion and appreciate your introverted self Maximize Your Potential as an Introverted Entrepreneur Learn the Qualities of successful introverted leaders throughout history Find your genuine introvert qualities that will make you thrive in Business How to better partner up with your complementary extroverts or your own introvert How to use todays web connected world to your introvert advantage Among many, many others...
