

The James Bond Cold Reading: A Re-Imagining of the Classic Reading (Speed Learning) (Volume 2)

I got Julians book and it is wonderful! It is a great system for doing a reading and extremely practical. I applaud Julian and highly recommend this! - Richard Osterlind The James Bond Cold Reading is a whole new take on the twelve lines of the Classic Reading made so popular from the 50s to the present day. Julian Bev Moore shows you how this much discussed but seldom used powerful cold reading technique can be applied effectively and memorised in no time at all using characters such as James Bond that you already know and love. Forget about learning stock lines and never using them - using the proven techniques in The James Bond Cold Reading, you can learn to speak in you own words and amaze people by how much you know about them using one of the most misunderstood tools of mentalism - the character reading. By bringing a modern slant to an old technique, Julian Bev Moore proves once again that that the old ones are the best - if only we knew how to apply them. If youre not a fan of stock lines and think that learning them is a waste of time, this ebook could seriously change your mind! REVIEWS First palmistry, now general Forer-Barnum 101... this guy really amazes me. - Craig Browning Julian has taken the Classic Reading - which isnt out of date, as some would suggest - and applied a James Bond theme to its LEARNING (not to the reading itself), to make the readings customization so much easier. Its ingenious, simple, and thought-inspiring, all at the same time! Buy this now, and start using it right away! - R. Lee Davis I have tried many times to learn the stock lines of cold reading. Ive tried memory techniques, linking, the peg system, and even with all that everything seemed a confusing, repetitive mess. Because of Julians system, in two days, I have learned to give a cold reading forward, backward, inside out and in my own words. Just as

with Julians palmistry book saved me about five years of study, this book is just as good and also very interesting. If youre interested in cold reading at all this will be the best money youll ever spend. As a side note his system could be applied to anything else you might want to memorize and make your own. I have never heard of his techniques before and I have studied a lot of memory techniques. Its so easy I will add this to my readings repertoire. - Scott Martisse ?So Im finally watching the new Casino Royale and lines from the James Bond Reading keep popping unbidden into my head. What makes this interesting is I hadnt really intended on learning the reading via James Bond but via a character I know more about. I followed Julians suggestions to practice readings aloud, even to inanimate objects. After a bit of this, I tried the real deal. This isnt something you can do mechanically, at least if you want to get maximum effect and responses. It is a matter of a give and take that is entrancing in its impact. I cant wait to see what more experience will bring. Thank you Julian, you really have made a significant contribution. Your ability to simplify and teach is exceptional. I generally rely on my knowledge as a psychologist to add a bit of reading but it wasnt anywhere as powerful as applying this system. Folks, dont just read JBR. Get out there and use it. - Dr Bill Cushman
