

The Roots of Appeasement

World War II and its attendant horrors arguably began in the British policy of appeasement of the Nazi rise to power between the First and Second World Wars. In this compelling telling, Martin Gilbert walks the reader through several decades of behavior that, in retrospect, is hard to accept. Gilberts incisive focus on primary sources uncovers the real reasons for the appeasement policy, from the search for a just peace to attempts to avoid another war at all costs illuminating the historical underpinnings of a fatally flawed policy, and its tragic consequences for the Jewish people. The book also contains a chronology of appeasement policy as well as five specially drawn maps and five appendices including a transcript of British statesman and politician David Lloyd Georges conversation with Hitler at Berchtesgaden in 1936. About the Author SIR MARTIN GILBERT was born in England in 1936. He was a graduate of Oxford University, from which he held a Doctorate of Letters, and was an Honorary Fellow of Merton College, Oxford. In 1962 he began work as one of Randolph Churchills research assistants, and in 1968, after Randolph Churchills death, he became the official biographer of Winston Churchill. He published six volumes of the Churchill biography, and edited twelve volumes of Churchill documents. During forty-eight years of research and writing, Sir Martin published eighty books, including The First World War, The Second World War, and a three-volume History of the Twentieth Century. He also wrote, as part of his series of ten historical atlases, Atlas of the First World War, and, most recently, Atlas of the Second World War. Sir Martins film and television work included a documentary series on the life of Winston Churchill. His other published works include Churchill: A Photographic Portrait, In Search of Churchill, Churchill and America, and the single volume
