

## The Temper of Our Time

Eric Hoffer--one of Americas most important thinkers and the author of *The True Believer*--lived for years as a Depression Era migratory worker. Self-taught, his appetite for knowledge--history, science, mankind--formed the basis of his insight to human nature. *The Temper of Our Time* examines the influence of the juvenile mentality, the rise of automation, the black revolution, the regression of the back-to-nature movement, the intellectual vs. learning, and other relevant issues.
